

Dragonfly Grant Scoring Rubric (updated 11/2017)

Project Description (6 possible points):

Criterion (and related question)	Yes	Somewhat	Not at all
The target audience is well-described. (Questions 2)	3	2	1
The relationship to the fine arts and the environment are well described. (Question 3)	3	2	1

Project Objectives (9 possible points)

Criterion (and related question)	Yes	Somewhat	Not at all
The objectives define specifically what will be learned. (Question 5) Clearly identify GSE if applicable. (Question 1)	3	2	1
The application clearly defines how each objective will be assessed. (Question 5)	3	2	1
The objectives are realistic for the segment of the youth being targeted as the audience. (Questions 2 and 5)	3	2	1

Project Activities (12 possible points)

Criterion (and related question)	Yes	Somewhat	Not at all
The project activities are appropriate for meeting the stated project objectives. (Question 6)	3	2	1
The activities are age-appropriate. (Questions 2 and 6)	3	2	1
The project does more than disseminate information: learners will engage in hands-on activities, problem solving, and/or skill-building. (Question 6)	3	2	1

The project makes good use of existing environmental education and/or fine arts resources, or provides good justification for the decision to develop this new project. (Question 4)	3	2	1

Timetable (3 Possible Points)

Criterion (and related question)	Yes	Somewhat	Not at all
The timetable links objectives and activities to specific dates. (Questions 5 and 6)	3	2	1

Continuation/Replication Plan (6 possible points)

Criterion (and related question)	Yes	Somewhat	Not at all
The application includes a realistic plan for how the project can continue once funding ends. (Question 7)	3	2	1
The plan describes how the project can possibly serve as a model for replication in other communities or with other audiences. (Question 7)	3	2	1

Budget Appropriateness (3 Possible Points)

Criterion (and related question)	Yes	Somewhat	Not at all
The budget items are appropriate, expenses are eligible, and estimates are reasonable. (Question 8)	3	2	1
