

Monarchs Across Georgia Habitat Award

To be eligible for nomination, the habitat must be a [certified Monarchs Across Georgia Pollinator Habitat](#) that goes above and beyond the minimal certification criteria and has been established for at least three years.

1. Under what name was the pollinator habitat certified with Monarchs Across Georgia? If known, give the date and/ or number of the certification. *This information can be found on the certificate.*
2. Please list all other habitat certifications at this site and dates of these certifications.
3. Have there been any changes to this pollinator habitat since the original Monarchs Across Georgia certification? (i.e., enhancements, disturbances, etc.)
4. Is the pollinator habitat available and used for education, research and/ or observations? Please elaborate.
5. List the citizen science projects done at this site including the number of years involved in each. (Examples: Journey North, Monarch Watch, Project Monarch Health, Monarch Larva Monitoring Project, The Great Sunflower Project, etc.)
6. List the species and number of each milkweed present at this site.
7. List the sustainability practices in place at this site. Refer to [Conservation Practices](#) for some suggested methods.
